

What is our Church Partnership Program?

Several area churches have chosen to provide financial assistance for members of their congregations. Each participating church is given a unique “promo code” to distribute however they deem appropriate, to whomever they deem appropriate. Some churches limit use of their code to active members, while others allow members to invite friends or family to use the code. If your church participates, please make sure you understand who is eligible to use the code. You may only obtain the code from your church. If you have questions, please contact your church.

Your church’s code will reflect the pre-determined amount of each camper fee that they have decided to cover (a percentage, dollar amount, or a combination) If you have successfully used your church’s code during registration, your balance at checkout will reflect the promo code and be decreased.
