

How do GENEVA Payment Plans work?

If you choose the payment plan option, \$50.00 will be due at the time of registration, and the remainder of the balance will be split in two and automatically charged approximately one month and two months after your first payment. We will email a reminder about each payment one week before it processes. There is a \$10.00 credit card processing fee added to your total balance, and will be included in your payments.
